

2025 Winter Workshop of the **Battery** Division

**Organized by The Korean Electrochemical Society
Battery Division**

**Hotel Naru Seoul-MGallery, Korea
February 6–8, 2025**

About Workshop

The 2025 Winter Workshop of the Battery Division, the Korean Electrochemical Society, will be held from February 6 to 8 in Seoul, Korea. This workshop is intended to bring together battery scientists and engineers to exchange their ideas on: (1) Strengthening the research cooperation among academia, national labs, and industry and; (2) Research direction for advanced Li-ion batteries and next-generation batteries, such as all-solid-state, Li-metal, Li-S, and metal-air batteries. Furthermore, it will provide an opportunity for division members to have friendly networking. In this workshop, we will discuss ways to successfully host the upcoming 2025 Battery Technology Symposium
